58V OUTDOOR POWER EQUIPMENT SUPERFUEL POWER IMAGINE SUPERIOR

E-Energy 58V Lithium-Ion Battery combines optimised energy storage and high-efficiency output with advanced thermal control, using a fortress-inspired structure and triangular cell grouping for rapid heat dissipation. Engineered for demanding industrial use, its shock-resistant design ensures durability, while intelligent airflow management maintains stable temperatures under heavy loads. Prioritising safety and extended runtime, it delivers reliable power through precision-engineered cooling and energy density maximisation.

SUPERFUEL

01 E-ENERGY 58V Li-ION BATTERY

The e-ENERGY 58V lithium-ion battery boasts a fortress-style interior design with triangular cell groups arranged to maximize on energy accumulation and space for heat dissipation.

02 SUPERFUEL ENERGY CHARGER

The DCK 58V SUPERFUEL ENERGY CHARGER monitors and controls each cell in the battery pack to control temperature for maximum battery life.

03 BACKPACK LINK

New heat dissipation system
Support 58V full series battery pack

04 BRUSHLESS OUTER ROTOR

Provide higher power density in the same size
Higher output power and torque can be achieved

05 WALK-BEHIND MOWER

DCK 58V Self-propelled Lawn Mower features straight edge grass cutting performance and is easy to store. The self-propelled function increases traction and allows for effortless pushing of the mower.

06 HANDHELD BLOWER

The DCK 58V Superior Blower with advanced aeronautics air duct engineering maximizes the air volume and velocity. The era of petrol/gas leaf blowers is over with the brushless motor.

07 CHAIN SAW

The chainsaw, equipped with 45cm(18") Oregon® chain and guide bar, combined with an anti-vibration structure, delivers comfortable and safe working experiences.

08 STRING TRIMMERS

Compatible with the DCK 58V Multi-Head System and other trimmer systems, the 58V Brushless Multi-Function String Trimmer offers easy attachment replacement.

09 EDGER CUTTER ATTACHMENT

Durable made and depth adjustment wheel
8" hardened steel

10 BRUSH CUTTER ATTACHMENT

The DCK 58V Brush Cutter integrates three core innovations: a precision-machined metal gearbox with hardened steel components for extended durability.

11 POLE HEDGE TRIMMER ATTACHMENT

Variable speed control & Portable installation
9 position rotating

12 POLE SAW ATTACHMENT

Featuring a 25mm (10") OREGON® bar and chain, it delivers robust cutting performance for demanding pruning tasks.

13 EXTENSION POLE

Portable installation interface for quick and easy installation.

14 HEDGE TRIMMER

The DCK Hedge Trimmer with top grade high quality, has a brushless motor that delivers ultimate power, and low vibration associated with longer runtime.

15 20V MAX

The DCK 20V MAX System is engineered for power and reliability, offering professional-grade performance for tradespeople.

SUPERFUEL 58V

ENERGY LITHIUM-ION BATTERY

THERE IS NO SUBSTITUTE

Get into the DCK 58V platform to experience industry-leading lithium-ion battery technology that boasts a fortress-style interior design with triangular cell groups arranged to maximize energy accumulation and space for heat dissipation. This combination of safety and efficiency ensures reliable and shock-resistant performance, making it the ideal choice for demanding applications.

[EU.DCK-TOOLS.COM/OPE/](https://eu.dck-tools.com/ope/)
DCK 58V EASE YOUR YARD CLEAN DOWN,
EASE YOUR MIND NATURE FUN.

TRIANGULAR CELL GROUP ARRANGEMENT

The axis of the three cells are engineered in a triangular configuration, optimizing space and utilization while maximizing energy output for enhanced structural stability.

ADVANCED HEAT DISSIPATION

With a large space for energy accumulation, the center of the battery reserves ample space for heat dissipation.

BMS IMMERSIVE PROTECTION

The advanced battery management system provides intelligent safeguards for temperature and voltage protection. This technology prevents short-circuits and ensures peak performance and durability of the system.

ACCESSORIES

Shoulder Strap *1 | Backpack Connector *1

ELABORATE IN DETAIL

99,-

The external dummy pack connector can match the full range of 58V platform products. The ergonomic design allows users to adjust the looseness according to their own conditions, and properly disperses the heavy feeling brought by the battery pack, and effectively reduces the fatigue caused by long hours of handheld operation.

STEP 01

Insert the battery into the portable power unit. You'll hear a click once it's properly locked in place, meaning it's securely installed.

STEP 02

Put your arm through the shoulder strap and use the adapter. Adjust the length of shoulder strap buckle and the buckle on the chest for comfort.

STEP 03

Put the power cord through Velcro along the shoulder strap. In addition, stick the Velcro and lock the buckle.

STEP 04

Connect the adapter cable to the power supply unit and verify the portable device powers on normally.

After completing assembly steps 1 through 4, the final product should match the illustration provided.

STEP 05

Install the adapter into the designated machine, and then start the tool following the provided instructions.

Portable interface for quick and easy installation.

AUTOMATIC OILING

Automatic oiling delivers a steady supply of chain lubrication for safe and effective use.

The one-touch angle adjustment feature allows for seamless 0-90° positioning, enabling versatile performance across a wide range of pruning tasks.

The chain-tensioning screw allows for quick and precise adjustment of the saw chain, ensuring optimal tension for safe and efficient operation.

Dual-head wrench lock/unlocks the hex head bolt and the flat screw.

250MM (10") OREGON® CHAIN AND GUIDE BAR

Dual action double sided blade for optimal cutting performance and efficiency.

SUPERFUEL 58V

CORDLESS BRUSHLESS HEDGE TRIMMER

The DCK 58V Hedge Trimmer features 650mm (26") dual-action steel blades for precise cuts up to 33mm (1-1/4") and smooth trimming thanks to laser-cut, diamond-ground blades. Its brushless motor ensures durability, extended runtime, and quiet operation. Comfort is enhanced with a 5-position 180° rotating handle and variable speed control, while its anti-vibration design guarantees safer, more comfortable use. Additionally, it offers a No-Load Speed of 2400/2800/3400rpm, allowing for optimized performance depending on trimming needs.

DESIGN TO ABSORB VIBRATION

Patented anti-vibration design, blade gap gets around those branches and rips right through them, while the over molded construction on the grips dissipates all that power

ROTATING HANDLES

5-position 180°rotating provides comfort trimming during vertical and angle trimming.

LONG-LASTING BLADE

Made from high carbon stainless steel (C75), the blades are more durable

FRONT HANDLE FOR EASY CONTROL OF THE TOOL.

ERGONOMIC DESIGN

Compact and durable brushless motor brings sustaining power, longer runtime with lower noise. The over molded rubberized grip dissipates all that power and provides a comfortable experience.

- Dual-switch safety system (rear trigger + front lever) prevents accidental startup for secure operation.
- Integrated lock-off mechanism ensures complete trigger deactivation, preventing accidental starts and unauthorized use.
- Precision 3-speed selector (2400/2800/3400 RPM) adapts to varying cutting tasks, from delicate trimming to heavy-duty hedging.
- Front handle for easy control of the tool.
- Advanced safety guard with debris deflection system minimizes injury risks from flying debris and accidental contact.
- Reinforced blade tip guard provides maximum protection against impacts and abrasions during storage and transportation.

- Compact and durable brushless motor brings sustaining power, long runtime and low noise
- Safety-engineered blunt-nose blade design prevents puncture injuries while maintaining optimal cutting performance.

DURABLE, ESPECIALLY FOR 20V LITHIUM BATTERIES

The DCK 20V MAX System is engineered for power and reliability, offering professional-grade performance for tradespeople. With battery capacities ranging from 2.0Ah to 12.0Ah, our tools are designed to meet the demands of professionals worldwide, delivering unmatched durability and dependability on the job.

20V MAX CORDLESS BRUSHLESS PURNER KDYD35S

Featuring a brushless motor for superior power and energy efficiency, this trimmer integrates SK5 steel blades with Teflon coating to ensure razor-sharp durability, non-stick performance, and wear resistance. Its 4-gear shearing capacity and electronic shift function adapt seamlessly to diverse cutting tasks, while the dual safety switch eliminates accidental activation. Designed for comfort, the ergonomic rubberized handle provides secure grip and reduced fatigue during extended use.

BRUSHLESS MOTOR

More powerful and Higher efficiency.

SK5 STEEL BLADE WITH TEFLON COATING

SK5 steel blade with Teflon coating offers exceptional sharpness, durability, and non-stick performance with enhanced wear resistance.

4-GEAR SHEARING CAPACITY SETTING

Applicable to different working conditions.

DUAL SAFETY SWITCH

The dual safety switch effectively prevents false starts.

ELECTRONIC SHIFT FUNCTION, MATCH VARIOUS APPLICATIONS.

RUBBERIZED HANDLE COMFORTABLE TO HOLD

20V MAX CORDLESS BRUSHLESS CHAIN SAW KDCS20101

Equipped with a brushless motor for extended runtime and enhanced durability, this chainsaw delivers efficient cutting with a maximum chain speed of 12m/s. It features innovative tool-free chain tensioning and an automatic oiling system to simplify maintenance while prolonging chain life. The ultra-compact, lightweight body ensures superior maneuverability, complemented by a safety-focused brake system for reliable operation in diverse conditions.

TOOL-FREE TENSIONING

Tool-free saw chain tensioning for convenient operation and maintenance.

EFFICIENT CUTTING

12m/s max. chain speed for efficient cutting.

ULTRA-COMPACT

Ultra-compact body and light-weight.

BRAKE SYSTEM, SAFE AND RELIABLE

AUTOMATIC OIL PUMPING SYSTEM FOR ENHANCED CHAIN LIFE

Automatic oil pumping system Automatic oil pumping system to improve chain life.

BRUSHLESS MOTOR

Brushless motor delivers longer run time and extended motor life.
